About This Content

Tempest is the first free DLC for Goblin Storm.

Tempest focuses on the Human factions of Arcwellion. Helsatia and Westdale have been totally overhauled, and they are now joined by 4 new factions, each with unique play styles. Many new units and a brand new map Alpenheim.

New Factions:

The Oslid Kingdom

The Oslid rely upon heavy shock cavalry, including Lancers and the elite Druzina, specializing in hit and run tactics. The Oslid are powerful and mobile on the attack, but vulnerable on the defense, and afflicted by poor levies.

Duchy of Dunwall

The Duchy of Dunwall offers a lighter and more flexible alternative to the classic Kingdom of Westdale. Dunwall fields a wide selection of heavy and light infantry supported by lethal longbow men and highly defensive billhook levies. Their armies are well supported by numerous light, recon cavalry, but are chillingly deficient in heavy cavalry.

Markgravate of Nordwacht

The Markgravate of Nordwacht excels in cavalry maneuver and skirmish combat with Outrider horse archers and Jagers. When maneuver fails, they fall back on heavy defensive infantry to hold the line against the goblin onslaught.

Grand Duchy Otčina

The Grand Duchy of Otčina employs powerful infantry lines built around elite Battle Master regiments and supported by pavisé crossbowmen. Slow, but lethal, Otcina can grind down the strongest Goblin forces in pitched field battles.

- Total overhaul of combat values.
